Release to Production Site – July 7, 2024

# Table of Contents

# Overview

This document contains the Release Notes for July 2024. Upon receipt, please review and test these changes in your Staging Site as soon as possible. The updates may have different effects, depending on your configuration. Use the following tags to understand the impact of the updates on your site:

**Core**

Available to all users when released

**Add-on**

Dependent on the activation of other feature(s)

**Setup**

Some setup is required after the release

**Add-on**

Requires purchase and additional setup

Please note that the terms *client*, *patient*, and *individual* are used interchangeably throughout this document, depending on the feature.
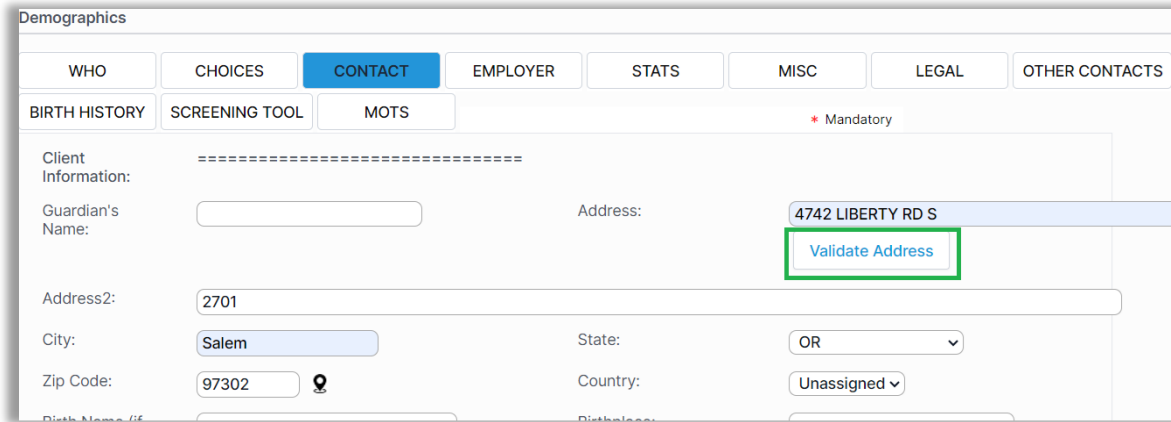

If you have questions regarding staging sites or this release, please contact our support team at support@drcloudemr.com.

# Patients

## Address and Zip code Validation

☑ Core  ⚙ Setup  $ Add-on

DrCloudEHR now includes a **"Validate Address"** button in multiple demographics tabs, including Client Information, Emergency Contact, Funding Source, etc.

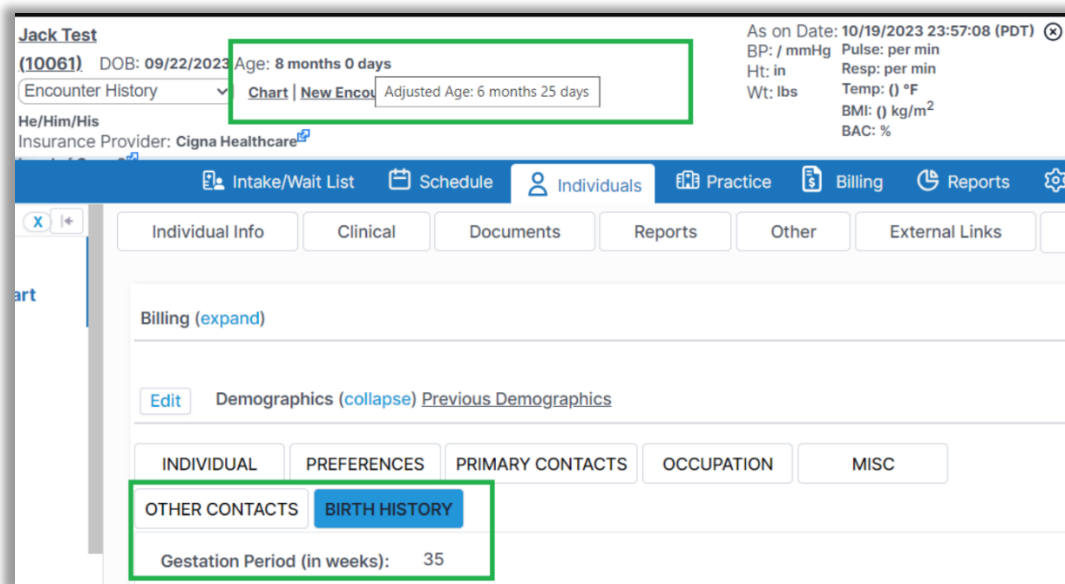

## Configurable option to display the "Age of Children" in Demographics

☑ Core  ⚙ Setup

DrCloudEHR now includes options to display the actual and adjusted age for children under the age of 5 years. This option is based on global settings and calculating adjusted age based on the birth history weeks.

Display Options available: Don't show, show in years, show age in reporting pattern.
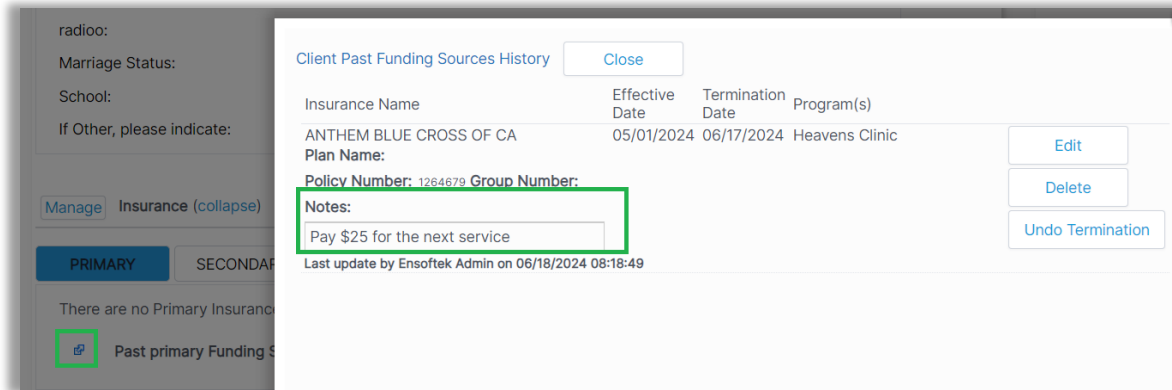

Display Adjusted Age: Displays as a tooltip of the actual age when hovering over it - calculates as (Chronological Age: Full Term (40 weeks) - Gestational period at Birth (EX:34 weeks)).

## New Notes Tooltip for Past Insurances

✅ **Core**   ⚙️ **Setup**

**Patient Demographics -> Insurances -> Past Insurances:** DrCloudEHR now includes a "Blue Arrow" tooltip, which shows there are notes for Past Insurances.

## Main Search feature now remembers the last five charts opened

✅ **Core**   ⚙️ **Setup**

The Main Search feature now remembers the last five (5) opened charts. As and when an authorized user opens a chart, the system remembers it. The recently opened charts list then displays when you hover over the Search Box. Tap or click the entry to open the chart again.

# Administration

## Ability to Block User Access based on the User Termination Date

☑ **Core**   ⚙ **Setup**

DrCloudEHR now provides the ability to block user access automatically based on the user termination date. Administrators can update the Termination Date and automatically after that date, the user will not be able to log in.
